Exhibitor and Booth Information

Outside Events During Exhibit Hall Hours

No exhibitor may schedule any outside activity, such as an open house, networking event, etc. away from the exhibit hall if it is occurring during exhibit hall hours. Any company found hosting an event during exhibit hall hours risks forfeiting their booth space and priority points for the following year.

Distribution of Souvenirs and Samples

Exhibitors wishing to incorporate an 'audience gathering' demonstration as part of their display must submit their plan in writing to Show Management by **August 30, 2025**. Exhibitors are free to distribute souvenirs, samples, or prizes. Management asks that this be done within the confines of your designated booth space.

Booth activities must be contained within the allotted exhibit space. Please allow sufficient room so that attendees watching demonstrations do not disturb another exhibit. In general, audience gathering activities via a narrator, performer or the use of mobile robots will be allowed only in peninsula or island configurations. Distribution of literature, posters or signs in the aisles, restaurants, lounges, or registration areas is prohibited. Material placed in these areas will be discarded.

Booth Personnel

Essential Exhibitor Badge Guidelines:

- Badges will **NOT** be mailed. You may *pick up your badge onsite at METALCON Registration*.
- All booth personnel must be an employee of the exhibiting company. Exhibitor badges will only be provided to employees with exhibiting company business cards. No editing or manipulation of badge information is allowed. Badges above and beyond the complimentary allotted amount will be limited according to the size of your booth. These exhibitor badge overages are available at a fee of \$50.00 per badge.
- Once a company has reached their allotment, they will have to register as an attendee and will not be permitted into the exhibit hall during non-exhibit hall hours.
- Show badges must be always worn (except move-in & move-out days; stickers will be provided to gain entry to the exhibit hall)
- Lost or forgotten badges will be subject to a \$50 reprint fee and are **ONLY** provided with proof of identification.

Sound in Exhibits

Sound systems may be used in booths, provided they have met applicable safety regulations, are installed in a workmanlike manner, and do not create a distraction in adjacent and opposite booths. All exhibitors utilizing sound amplification may not exceed 75 decibels as to not interfere with the activities of neighboring booths. In the event of a dispute, METALCON Show Management reserves the right to make the final determination of acceptability. Failure by an exhibitor to comply with a request to reduce or eliminate sound amplification shall result in the loss of all booth assignment points accumulated in 2025 and/or refusal to allow sound amplification in the booth for the duration of the show. Use of a

compressor-limiter in public address equipment is encouraged to assure continuous adherence to this rule. Some sound systems may require an electrical operator.

LIABILITY

Show management is not responsible, nor liable for injury to the person or property of exhibitors, their guests, invitees, employees, or agents. The exhibitor agrees to indemnify and hold harmless Show Management, its director, employees and agents from any-and-all liability of personal injury and loss or damage to property. Exhibitors must insure against such contingencies. All property of an exhibitor is understood to remain in their care and control in transit to or from or within the confines of the exhibit hall. If the display fails to arrive, the exhibitor is responsible for the booth rental. It is advisable to contact your insurance company regarding an "extra territorial" rider to your regular policy to protect your exhibit from loss by fire, flood, explosion, damage or loss. Exhibitors must be on hand to supervise during set up and dismantling of equipment and other items of high value. Small items of great value should be placed in a locked enclosure during hours when exhibits are not supervised by company personnel.

SECURITY

- METALCON provides 24-hour perimeter security to prevent entry into the exhibit hall by anyone not authorized by the facility or METALCON Show Management. Access to exhibit space is strictly prohibited once the hall is closed for the night by Show Management.
- METALCON reserves the right to inspect packages, boxes, bags or backpacks leaving or entering the show at any time.
- The security service does not guarantee exhibitors against loss, nor does it assume liability of show management for exhibitor's property. Any exhibitor wanting to stay in the hall after the exhibits close or prior to their opening must hire a security guard. To order additional security, please contact The Expo Group Service Center.

GUIDELINES FOR PHOTOGRAPHY AND AUDIO/VIDEO RECORDING

Due to the sensitive nature of new products and the unique exhibit displays at METALCON, photography and audio/video recording of any kind by exhibitors and attendees are strictly prohibited with the exception of event managements official photographer and videographer without written permission from show management. Please contact Amanda Carlow at amanda@metalcon.com directly if you plan to record/broadcast any video from the on-site event.

Qualified press and exhibitors who wish to film within the confines of their own booth are required to get prior approval from Event Management by contacting amanda@metalcon.com.
